

Our Commitment to Food

Often starting at the blueprint stage, Meehan's Industrial works in partnership with customers to install and commission integrated food processing systems including stainless steel food bins, glucose tanks, insulated cyclones, screw conveyors, table-top conveyors, robotic packaging and troughs. Additionally, Meehan's provides innovative and efficient maintenance programs and timely equipment upgrades, resulting in virtual elimination of production downtime and optimization of production capacity.

Solutions for the Food Industry

- Complete food processing line installations
- Preventative maintenance programs
- Project management
- Conveyors, platforms, stainless steel and structural fabrication
- Installation and modification of individual machinery

Call us today at 905.875.0090 to discuss a project with our experts or send your inquiries to info@meehans.ca to obtain a no-obligation quote.
