

## Our Commitment to Manufacturing

As a supplier of complete turnkey multi-trade solutions for an automated production line and critical skilled trade expertise, Meehan's Industrial is well-versed in today's Lean manufacturing environments. Customers have called on Meehan's manufacturing experts to perform re-tooling and revamping projects on a multi-trade or turnkey basis – consistently delivering projects on time and allowing those customers to focus on production in the time-driven manufacturing world.

In addition to installations and re-deployments, Meehan's Industrial provides innovative and efficient maintenance programs and scheduled shutdown services.

Contact us today at 905.875.0090 to discuss a project with our experts.
